

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFATORY NOTICE.

THE Trustees of the Public Library have much satisfaction in offering to their fellow-citizens an important additional or supplementary Index of books contained in the Institution committed to their care.

The Index published in July, 1861, comprised, — excluding duplicates, — about fifty-five thousand volumes, which had been placed in the Upper or Bates Hall previous to October, 1859; all received after that date not having come in season to find their appropriate positions under the alphabetical arrangement adopted. Since that period there have, by the report of the officers of the Institution, been received in the Bates Hall forty-four thousand and seventy volumes, forty-one hundred and twenty of which again came to hand too late to be inserted in the present Index, although each is entered in the interleaved copy of the Index of 1861, open to all in the Library. Fifty-nine hundred and eighty-three more are duplicates, chiefly donations, — indeed almost entirely such, — many of which, though desirable and important, do not, of course, need to be a second time announced. There remain, therefore, thirty-three thousand nine hundred and sixty-six volumes, which are represented in the present Index.

Of the whole number above mentioned, — viz., forty-four thousand and seventy volumes, — eleven thousand one hundred and ninety were received under a bequest of the late Rev. Theodore Parker, besides twenty-five hundred pamphlets received under the same bequest which have since been bound, and are now accounted as books.

Fourteen thousand six hundred and sixty-seven out of eighteen thousand one hundred and forty-nine volumes, purchased during this interval from the income of funds given to the Library at different times by its well-known benefactors, have been placed in the Bates Hall; and three thousand four hundred and eighty-two volumes, purchased from the income of the same funds, have been placed in the Lower Hall. Of those incorporated with the collection in the Bates Hall, all of which are included in the present Index, there were obtained from the Bates Fund, eight thousand one hundred and ninety-eight volumes; from the Bigelow Fund, one hundred and eighty-four; from the Franklin Club Fund, fifty-four; from the Lawrence Fund, two thousand three hundred and nineteen; from the Phillips Fund, three thousand one hundred and fourteen; and from the Townsend Fund, seven hundred and ninety-eight. The remainder of the books have come almost entirely from the multitude of generous individuals whose names may be found recorded in the published Reports of the Trustees between 1860 and 1865, and whose donations, ranging from above three thousand volumes, in one case, down in many cases to a single volume or a single pamphlet, have been gratefully acknowledged from time to time as they were presented.

The Trustees are not aware that an account more honorable to the friends and benefactors of the Library could be asked, or one more full of promise for its continued progress and success.

The Index itself, it is believed, needs no explanation. It has been prepared, as the last was, under the faithful care of Mr. Charles C. Jewett, the Superintendent of the Library, assisted by efficient collaborators, and especially by Mr. Frederic Vinton in the earlier part, and later by Mr. William E. Jillson. It is constructed wholly for practical use, as was its predecessor, which has been accepted as

excellent in its kind by the most competent judges at home and abroad, and which many thousands in our own community have found so well suited to their wants, that no change has on the present occasion seemed needful either in regard to principle or to detail.

Nothing, therefore, now remains for the Trustees except to commend this Supplementary Index to all who are interested in the culture and advancement of our city, and then leave it to do its proper work, that of making easily and pleasantly accessible to all, an excellent collection of books, large enough by itself to constitute a respectable library; and which, added to the still ampler collections on our shelves, places the whole Institution in the front rank of the practical and beneficent class to which it belongs.

EXPLANATIONS.

ONE STAR denotes that the book so marked can be taken out only by special permission.

TWO STARS, prefixed to the shelf number, denotes that the book was given on condition that it should not be taken from the library building.

THESE STARS are prefixed to the principal title only, — the title which has the imprint, — and not to other brief entries of the book called cross-references.

BRACKETS, enclosing titles, indicate that the work was published anonymously; brackets, within titles, denote that the words included are added to the title, or changed in form.

ABBREVIATIONS peculiar to certain long articles are explained in notes prefixed to the articles. Other abbreviations used in the Index are indeed numerous and various, but they are thought to be so common or so obvious as not to require explanation. 8°, 12°, etc., indicate the apparent size of the book, not always the exact fold of the sheet. Pph. and M.Pph., respectively designate pamphlets and medical pamphlets.

LEARNED SOCIETIES and public institutions are catalogued under the names of the places where they are established.

DURING THE PROGRESS OF THE INDEX, the titles of new books have been inserted whenever the title and cross-references came under letters not already printed, but in some cases, e. g. under the names of Boston authors, titles have been inserted when it was too late for the cross-references, and under the names of Mr. Everett and Pres. Lincoln the cross-references were inserted when the titles could not be.

THE Index to the City Documents, from 1834 to 1865, appended by permission to this Index, was prepared by Mr. James M. Bugbee, now Clerk of Committees of the City Council.

Note.—The "New and general collection of voyages and travels," London, 1744-47, in 4 vols. 4", (generally known by the name of Astley, the bookseller, though the compiler was a Mr. John Green,) formed the basis of this collection, and of that in French known as the Abbé Prévost's. The German editors profess to have translated directly from the English, and then to have followed in general the Abbé Prévost's continuation, varying therefrom sometimes, e.g. by inserting in Vol. IX, the travels of Juan and Ulloa in South America, and, in Vol. XIV, those of Charlevoix in North America. They have added copious indexes.

The German version was commenced by A. G. Klotner. Most of the work was, however, done by J. J. Schwabe, assisted by F. W. Beer, C. C. Woog, J. F. Müller, J. F. Bierling, and others.

The contents to Prévost's collection, as printed in our Index of '61, may profitably be consulted for this edition.

T.; Introductio quam brevissima ad Græcæ litteras. VI. Vocabularium Hebraicum totius Veteris Testamenti; Introductiones artis græmæ hebraicæ.

Note.—Cardinal Ximenez commenced this work as early as 1502. He called to his aid Demetrios Ducas of Crete, Ælio Antonio de Lebrija, Jacopo Lopez de Stunica, and Hernando Núñez de Guzman, with whom he joined Alfonso Medico, Pablo Coronello, Juan de Vergara, and Alfonso de Zamora. He collected seven Hebrew MSS., and some Greek. Those which had been borrowed from Rome by the favor of Leo X. were returned. Those which Ximenez had bought were preserved at Alcalá, where it is believed they still are. They have been described as modern and worthless. Only six hundred copies were printed.

 Note. — The original projector was Rivet, who associated with himself Poncet, Colomb and others. Rivet died in 1749, whilst the 9th vol. was in progress. This vol. was revised and completed by Tallandier, who prefixed to it an eulogy on Rivet. The 10th vol., published in 1756, and the 11th in 1759, are due to Clément. The 12th (in 1763) is due to Clément. The enterprise was then suspended, and so far as its original projectors were concerned, abandoned. It was resumed in 1814, and has been continued under the auspices of the Academy of Inscriptions and Belles Lettres.
